

Christian Barrios

3204337982 – stianward@hotmail.com Bogotá D.C

Systems engineer with extensive experience in operations, process automation and software testing. Development of Java EE-SE applications and Use of collaborative methodologies

ACADEMIC TRAINING

2012 – 2018	Systems Engineer - ECCI University
2012-2015	Computer development technologist - ECCI University
Complementary studies	
2022	Udemy - IBM Api connect Administrator
2021	Intermediate PL/SQL Course
2021	<ul style="list-style-type: none">● Red Hat Fuse 7 Foundations Part1: Fuse Online● Red Hat Fuse 7 Foundations Part2: Camel● Red Hat Fuse Openshift Foundations
2020	COBIT 5 upgrade certification to COBIT 2019
2018	Seminar on information security ISO 27001-27005

WORK EXPERIENCE

November 2021 – Currently	TELEPERFORMANCE S.A Development Quality Assurance <ul style="list-style-type: none">● Automation of tests in development processes, using JAVA 16 – Selenium Webdriver and Bash.● Development and assembly of scripts and Rest services in JAVA in Docker for the execution of automated tests.● Definition of use cases and execution of functional, stress, load and performance tests.
December 2020 - December 2021	ASSERT SOLUTIONS S.AS SRE Operations Engineer - Developer Analyst <ul style="list-style-type: none">● Execution of regression, smoke and unit tests● Use of SCRUM methodology● Development of SQL scripts (procedures, DML-DDL)● Consumption of webservices and APIS● Automation of tests with Selenium webdriver- Junit● Deployment of Java-maven-gradle microservices - NodeJs – Nest● Creation of projects (Namespace) for development factories● Openshift resource management at the quota level● Definition of deployments using .yaml files (Deploys-configmaps - secrets).● Azure devops – Pull request branches Develop - master● Monitoring nodeworkers - pods and deployments● 3Scale 2.6 administration - Apis creation - channels - users● SRE- Automation of Bdd backup management processes -● Automation of tests with Java Selenium webdriver- Junit. JDK-11-16.● Development of rest services for the execution of automated tests.
January 2019 – January 2020	HOSPITAL MILITAR CENTRAL Systems Engineer Innovation Laboratory <ul style="list-style-type: none">● Development of DML-DDL-Oracle 11g-12c and postgresql scripts.● Development of microservices and RESTFULL APIs

- Deployment and versioning of applications in GIT and Github.
- Development review and PAP

June 2017 - October 2018

BANCO DE OCCIDENTE S.A

October 2018 – February 2020

Flex Cube Developer Analyst - Technology Auditor

- pl/sql development - Java SE -PHP 7 LARAVEL 6-SQL SR.-Bootstrap
- GIT versioning
- Admin IIS-SQL SERVER 2016
- Information lifting. -Doc of technical requirements.
- Unit Tests-Load-Regression-Stress
- Urban code artifact deployment and SVN versioning.
- BigData ETL BI – ETL script development and automation for access to multiple legacies.
- aud. Under-appl. SOX – PCI -CGTI -COBIT5-27001
